

Global Executive Management Solutions

At the crossroads of finance, tax and accounting, you can count on Intertrust to look out for your best interests. We can assist you with the establishment and maintenance of new structures. We can support you with the optimisation of your business and facilitate its daily management.

We only succeed when you succeed. We therefore partner in virtually every aspect of running your company, from registration to staffing.

Trustworthy, reliable and proactive. That's the kind of people you need for your business to prosper in an international environment. We will work together with the finest lawyers and financial experts to help you achieve your particular goals. We can offer you the perfect professionals to manage your company for you.

Professional management services

As a corporate services provider, we are more than familiar with the difference that people can make. For your company, staffing should be just right. No more. No less. Having the right people in the right place is essential to optimise the returns for your Swiss entity and to accelerate your business.

- ▶ Executive management:
Our Global Executive Management Solutions provide you with independent and experienced professionals at all levels. We can introduce you to senior managers to serve as an independent

personal director. These managers are highly competent people who combine years of experience with the specialist knowledge needed in your specific sector. And, of course, they possess all the qualities needed to manage Swiss legal entities that are part of an international corporate structure.

We match your business. Match your needs. And we will introduce you only to those independent professionals who meet our strict criteria with proven track records and undisputed reputations.

- ▶ Professional on the payroll:
Intertrust can also facilitate employee contracts. Having a professional on your payroll will provide you with the best of both worlds: structurally high accessibility to professional support combined with familiar Intertrust quality. Depending on the expertise you need and the estimated number of hours involved per month, you can hire our professionals on part-time contracts. All the professionals know the ins and outs of the trust and corporate services domain. They are familiar with the system and its requirements. They will use their years of experience and the most up-to-date market knowledge to optimise the specifics for your particular situation.
- ▶ Administrative services:
In addition to facilitating the appointment of non-Intertrust-related personal directors and Intertrust staff, we also provide high quality

administrative services. You can count on us for a variety of activities, from corporate secretarial duties to maintaining your statutory registers, and from handling your accounting to sourcing your entire financial administration.

- ▶ Office space:
We are able to provide attractively located office space in Zug, close to public transportation, easily accessible from Airport (30 – 45 minutes) and close to the town centre. The office can be supported by tailor-made service levels based upon specific needs and the clients will be accommodated optimally during a visit. Intertrust Switzerland can provide similar services in other cities in Switzerland: Zurich, Geneva, Basel, Bern and Lausanne.

Quality control

Our management services will impact your control environment. But rest assured: we will guard it as fiercely as we guard ours. Intertrust is a SAS70 controlled company. This is reflected in the way we manage our own business. And it will be visible in the way we manage yours.

With our international network of experts, roots in the financial world and reputation for quality trust and corporate services, we bring together the people and knowledge you need to succeed. Whatever we do, we always hold ourselves to the highest standards and strict self-regulation. It's part of our history, and at the heart of our culture.
